Building relationships and maintaining trust

September 10, 2007

Mr. Scott Hughes
Project Manager
Ohio Valley Electrical Services
11441 Lippelman Road
Cincinnati, OH 45246

Dear Scott;

Thanks to your team of field people and electrical techs for the great job they did in running the conduit and cabling for the Building Automation System of The Midland Company project.

Your people were a pleasure to work with throughout. All were very qualified and professional in their approach and the quality of the work done. OVES kept up with the schedule we set, and as you know, that's a true asset on projects of this magnitude.

We appreciate everything your team did, and look forward to the opportunity of again working with you and the quality people of Ohio Valley Electrical Services.

Thanks again,

Pete Herrmann
Applied Mechanical Systems
Controls Specialist
