SUBJECT: OHIO VALLEY ELECTRICAL SYSTEMS  
FEDEX GROUND FACILITY, INDEPENDENCE KENTUCKY

Dear Dean,

It has truly been a pleasure working with you and your colleagues on this large project. From working with Ron Kelley, and especially with your foreman, Dave Rheinfrank, the effort by OVES was well appreciated and of high quality.

We had issues along the way, as do any large projects, but everyone stayed together to team up and meet the schedule dates. When equipment was late in arriving, Dave and his crews performed the work necessary to make the phased startup dates. All projects have issues and bumps in the road, but what makes a standout is when the chips are down, did we meet the scope and schedule requirements -- at FedEx Northern Kentucky, we sure did, and OVES was a large part of the quality and timely installation. Congratulations to all.

Let me know if you ever need me, or HK Systems, Inc., as a reference.

Best Regards,

Joseph P. McGinnis  
Sr. Project Manager
